Councilmember Kalinowski stated he hoped with the rewording of project specific conditions #86 and #87 the applicant would bring the best possible unique uses for the other buildings within the development.

Mayor Freitas stated his expectation was the project would become more upscale as the project was developed. He noted this was a stand-alone store, however, as the project developed, he would be considering requiring security patrols.

Councilmember Simonsen reported he had discussed the agreement with Mr. Arrigotti, representing Sierra Corporate Management, who indicated the owners and investors would be acceptable to the terms of the agreement with the exception of the adjustable CPI. He questioned whether or not the residents of Vista Diablo Estates agree to the change, and were told they would.

Mayor Freitas gave a brief history of the previous events surrounding the item and expressed his concern regarding the business practices of the management company as they dealt with the elderly. He reported the current agreement had been negotiated in good faith with the owners and he was concerned as to why they would now want to change the terms and conditions contained within a mutually agreed upon document. He recommended the City Council approve the agreement as presented, adding they (the residents) had until July 16, 2007 to sign the agreement. Assuming the residents did not sign the agreement, he suggested the City Council approve the recommended action this evening. He agreed with Mr. Gore a statewide resolution to these issues was desperately needed.

Mr. Gore stated he was in complete agreement with Mayor Freitas.
