

***Delta Diablo Sanitation District advises that street sweeping schedules for some Antioch Residents have changed!***

For more information and to find out if your schedule has been affected, please go to [www.ddsd.org](http://www.ddsd.org) for an update, or call (925) 756-1900 for assistance.

**PLEASE REMEMBER**

Rainwater can carry street debris such as trash, leaves, pet wastes and vehicle fluids into storm drains, which *can cause contamination of the Delta* and potential flooding. Residents can help prevent this by following these measures:

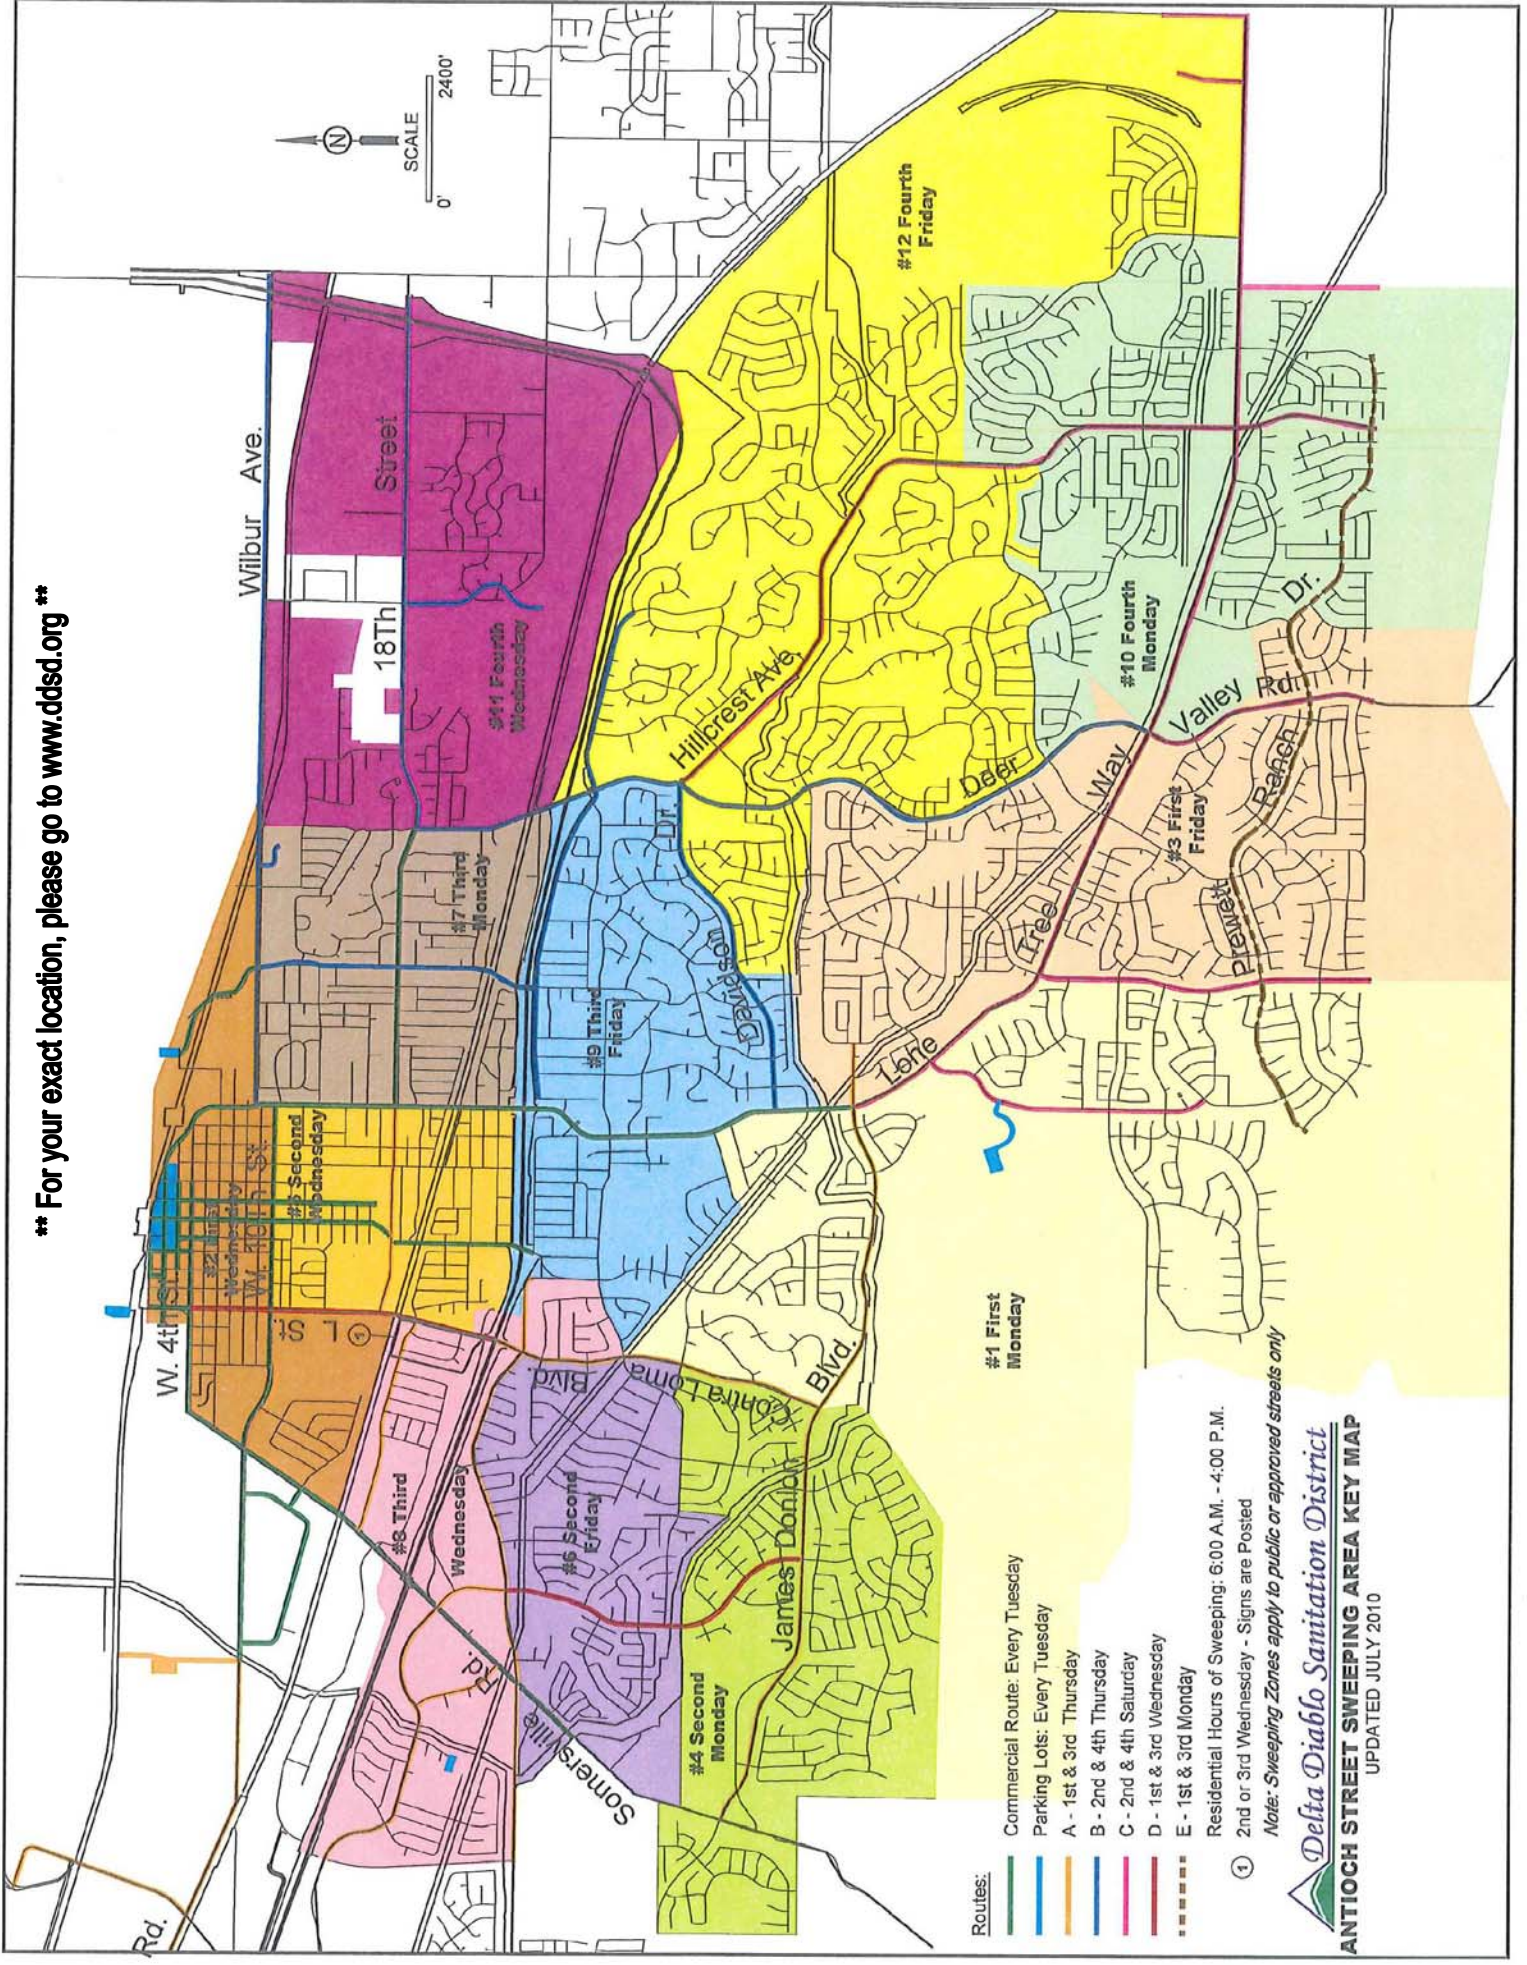

- **Be sure to move your car on designated street sweeping days;**
- **Keep the roadway in front of your home clear of any obstructions;**
- **Do not pile debris, leaves, grass clippings, vegetation and wood in gutters;**
- **Trim shrubs, bushes and trees from encroaching upon your curb or sidewalk;**
- **Be vigilant about your local storm water drain outlet. If safe, use a rake to remove leaves/debris to allow free water flow.**

**Thank you!**

**\*\* For your exact location, please go to [www.ddsd.org](http://www.ddsd.org) \*\***
