**Qualifying Basis for Yard Waste Exemption:** (check one)

1. The property is "hardscaped" and generates no vegetation acceptable for yard waste collection. (provide photo of front and rear yard with this application)

2a. I use or perform a landscaping/gardening service which removes all vegetation generated on this property to a compost/mulch processing facility. I am enclosing a completed Contractor Certification (see below).

2b. I represent the Homeowners' Association for a condominium, cooperative or planned development which does, or retains a landscaping service to do, common area maintenance. All vegetation generated on common areas is removed to a compost/mulch processing facility. I am enclosing a completed Contractor Certification (see below), and a list of properties (name and address) included in this exemption application.

3. On-site composting is conducted on the property such that no vegetation except palm fronds, bamboo, and cactus remains for disposal.

**I certify that the above statements are accurate and true, and I grant permission for City staff to visit my property for verification purposes.**
