INSTRUCTIONS TO BIDDERS

A. Bidders are directed to submit firm unit and lump sum prices for all work set forth in the Contract Documents on the following form entitled "Schedule of Bid Prices" ("Schedule").

Unit prices, lump sum prices and extended amounts must be entered in the appropriate spaces provided in the Schedule. Unit prices shall be multiplied by the Quantities shown, and the total shall be inserted in the EXTENDED AMOUNT column. In the event of any error or discrepancy between the Unit Price and the calculated EXTENDED AMOUNT, the Unit Price shall govern.

The amounts shown in the EXTENDED AMOUNT column must be added together in arriving at the Total Bid Price, including any Bid Options amount (if applicable). Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected total in its bid evaluation.

Amounts for Allowance bid items must be entered in the exact amount in the EXTENDED AMOUNT column.

The prices included within the Schedule of Bid Prices include all costs for labor, materials, tools, equipment, services, subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit and all other costs necessary to perform the work in accordance with the Contract Documents.

B. The Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the work, including the Base Bid and any Bid Options. The contract shall be awarded on the basis of the Total Bid Price.

1.02 BID PRICES

A. The Contractor's bid prices provided on a unit price basis shall remain firm and shall not be subject to adjustment. The provisions of Section 4-1.03 (B) of the Standard Specifications regarding increased or decreased quantities shall not apply.

1.03 UNBALANCED BIDS

All prices provided for each bid item shall be inclusive of all direct costs of the covered work (including all direct costs of subcontractors and suppliers), plus a proportionate share of the costs for general requirements, overhead, insurance, applicable taxes, and any other indirect costs and profit.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term "unbalanced bid" is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit to each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of work under a bid item. The City makes no representation that any work under a bid item will be performed during the course of the Project or that the work will be performed at the quantities indicated in the Schedule of Bid Prices. Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items and each Bidder acts at its peril if its bid is unbalanced.
